

Your On-Line choice for Drivers Education!!

Offering On-Line Courses since 2007

SIGNING UP

To sign up, please go to the register tab on the website and simply sign up the same way you would if enrolling in a regular class. Please make sure to mark On-Line if mailing it or choose the On-Line selection if signing up through the On-Line option via Pay Pal.

After receiving your information, I will then email you back information confirming your registration along with directions on how to complete the assignments. If there is availability, you will be asked to make the full payment of the program on your first scheduled drive. You may also call for availability @ **(402) 320-1804**.

The student will need to complete the On-Line Internet assignments along with the questions in the digital text book to successfully pass the On-Line Driver Education course. These meet the same requirements as the classroom phase and the student will receive their Provisional Operator's Permit upon successful completion of both the assignments and driving.

DRIVING

All students will drive a **minimum of 3 hours** and possibly more depending on experience. Additional costs will incur if the student will need more than 5 hours. Most students do complete their driving phase in under 5 hours though. All scheduled drives will be made via the phone, email or in person. Students may be picked up at their home if they live within 10 minutes of Elkhorn High School. Students living outside of this radius may be asked to meet at EHS or ESHS.

COST

The price is the same as the other classes within this program.

ASSIGNMENTS

The assignments will be emailed to you along with instructions on how to complete them. For the average student, please expect at least 20 hours to complete. Once they complete their assignments, they can simply email the answers back or give them to me hard copy and I will then send them the Final Exam digitally.
